

SOCIAL & DIGITAL GROWTH · FOR DISCUSSION

MAKE VIRASAT THE MALT NORTH INDIA TALKS ABOUT

Heritage from 1943, six-row Himalayan barley, a Ruby Port finish. The story is there. We'd tell it every week, with content your team approves.

1943

WHERE IT STANDS

New launch

Announced Nov 2025. Rolling out in UP, Haryana and Delhi first, then national.

Premium price

₹3,500–4,500 a bottle. Buyers research before they buy, so discovery and credibility matter.

Rich story

Bourbon barrels, Ruby Port pipes, 80+ years of Rampur Distillery. Plenty to film and write about.

THE GROUND RULE

Alcohol ads are banned in India (Cable TV Networks rules), surrogate ads are banned under the 2022 CCPA guidelines, and Meta does not allow alcohol ads in India. So no paid Meta/Google ads for Virasat in India. This plan is fully online: content, creators and search, and Radico's legal team clears every piece.

WHAT WE PROPOSE

01 Content calendar

- Instagram posts drafted and placed on a content calendar
- Nothing goes out until your team approves it

02 Visuals from one photo

- From a single bottle shot we make images and short videos: studio, lifestyle or with a model
- A brand profile sets the look and tone. Same setup we run for Ceremony Kitchen

03 Journal & newsletter

- Long-form pieces on the barley, casks and Rampur's history
- Drafted for your review before anything is published

04 Creators

- Creator collaborations tracked in one admin: who, what, when, which posts

05 Search & site health

- Google Business Profile and Search Console set up
- Heatmaps and drop-offs (Microsoft Clarity) on the Virasat pages, fixing the weakest pages first

06 Performance marketing

- Our Meta ads engine (briefs, audiences, daily ROAS reports) can't be used for alcohol in India
- We'll switch it on only if and where the law allows
