Rene Lalique 'Faucon' (1925, cat. 1124) is a car mascot ~15cm, clear/amethyst tint - pre-war R.Lalique examples are high-value and unlikely here. Modern Lalique 'Rapace' hawk is only ~2.5-2.75in. An 8in frosted falcon/eagle is likely a larger post-war Lalique France model or a Faucon re-edition; verify signature. Could not confirm any current falcon/eagle on Lalique official retail - us.lalique.com sculptures page was blocked from fetch and search did not surface one.
